MEP Instruments Appointed as Acculab Distributor

Acculab, a Sartorius group company has appointed MEP Instruments as distributor of their range of precision balances for Australia and New Zealand.

Balances are an indispensable tool in laboratories and often used in conjunction with other equipment supplied by MEP. This partnership now gives users the chance to purchase both from the one trusted source.

The brand new ALC line of precision balances made by Acculab consists of three analytical and nine top-load balances covering the most popular weighing ranges. Whether it's weighing precious metals, counting parts, or measuring chemicals and liquids, Acculab ALC series will answer your application needs efficiently and accurately.

Acculab was started making weighing equipment in 1989 before becoming a member of the Sartorius group in 1997. Drawing on the expertise and pioneering technology of Sartorius, Acculab has just recently launched a new product portfolio.

Whether it is a precision balance used in teaching, a portable scale for sample analysis or a counting scale for incoming inspection, every Acculab product is simple to use and designed to last.

Please contact MEP Instruments on 1300 720 485 or e-mail info@mep.net.au for further information.

MEP Instruments is sole distributor of leading names in sample analysis technology in Australia and New Zealand. The joint venture company formed by Metrohm Switzerland and Anton Paar Austria provides comprehensive service, support and training for the whole product line of Metrohm, Anton Paar, Applikon, Autolab, Camag, Ismatec, and Retsch in Australia and New Zealand.
